

MEDIA RELEASE

Niagara-on-the-Lake to Welcome New Director of Operations

For Immediate Release

November 4, 2022

Following a robust hiring initiative, the Town of Niagara-on-the-Lake is pleased to announce Romolo D'Angelo as the new Director of Operations, effective November 14, 2022.

Romolo has over 30 years of leadership experience working in a municipal setting. He is coming to the Town from the City of Hamilton, where he worked as a Director in Public Works. Romolo also worked as a Director in the Community Services Department. Other positions he has held at the City of Hamilton include Manager of Buildings and Technical Services and Supervisor of Customer Service and Metered Water Operations. Additionally, from 2017 to 2022, Romolo served as the President of Hamilton Renewable Power, a leading energy provider.

"I look forward to seeing Romolo use his expertise and experience to oversee the various services offered through the Operations Department," stated Lord Mayor Disero. "The Operations Department consists of many hardworking employees, and I believe Romolo will lead and guide this team with precision, professionalism, and a collaborative mindset. Congratulations, Romolo!"

"I am excited to announce Romolo as the new head of our Operations Department," stated CAO Marnie Cluckie. "Romolo's strong leadership, extensive experience, knowledge, and goal-oriented mindset will make him a tremendous asset to the Town of Niagara-on-the-Lake. These essential skills will help optimize operations and enhance service delivery. Congratulations, Romolo. On behalf of Town Staff, we all look forward to working with you!"

Romolo holds an Industrial Engineering diploma and is a Certified Engineering Technologist (CET). He attended the Ivey Business School at Western University, where he completed an Executive Leadership Development Program. At the University of Toronto, he completed a Physical Asset Management Certificate Program and a Facility Management Program. Other notable programs Romolo has accomplished include High-Performance Management through Peak Performance Systems and the Advanced Management Program through McMaster University.
