

TOWN STATEMENT

Former Hospital Site Engagement Process (176 Wellington Street)

For Immediate Release

May 22, 2025

The Town of Niagara-on-the-Lake is providing an update regarding the former hospital site located at 176 Wellington Street, a property owned by the Town.

A recent advertisement published in local newspapers regarding a proposed development on this site is *separate* from any formal municipal planning or consultation process, and the Town was not consulted about this or other community engagement processes. This advertisement does not reflect the current status of the property, and at this time, no decisions have been made regarding the future of this site.

The property is currently in the early stages of a formal Town consultation process, during which Town Staff are working closely with a third-party consultant to plan meaningful public engagement. Full details about how community members can participate and provide feedback will be shared in the coming weeks.

The Town is committed to a transparent and accountable process. Public feedback is not just encouraged; it is essential to shaping any future Council direction for this important municipal asset.

Thank you for your continued attention and involvement.
