

NEWS RELEASE

Town Announces First Public Information Centre for Queen Street Secondary Plan

For Immediate Release

October 28, 2026

The Town of Niagara-on-the-Lake is inviting the community to participate in the first phase of public engagement for the [Queen Street Secondary Plan project](#) (Town File No. OPA-04-2026).

The Town has retained The Biglieri Group Ltd. to lead the project, with oversight and support from Town staff. The project will help guide the future of the Queen Street area while recognizing its unique historic character. It will consider local businesses, tourism, transportation, infrastructure, public spaces, the relationship between the commercial area and surrounding residential neighbourhoods, and opportunities for compatible growth.

Public Information Centre

The in-person Public Information Centre will provide an opportunity to learn more about the project, review the work completed to date, and share feedback to help inform the next steps. This will be the first of multiple opportunities to engage with the Town and consulting team regarding this project. The Public Information Centre will also be an opportunity for you to ask questions, and to identify opportunities or issues that should be considered as the project moves forward.

Date: Tuesday, November 17, 2026

Time: 5:00 to 7:30 p.m.

Early Access Quiet Half-Hour: From 4:30 to 5:00 p.m., a quieter, lower-stimulus environment will be available for individuals who would benefit from additional time to review the PIC materials and participate with reduced noise, fewer attendees and a calmer setting for asking questions and engaging with project staff. Community members who do not require this accommodation are encouraged to arrive at 5:00 p.m.

Location: Simpson Room, Niagara-on-the-Lake Community Centre, 14 Anderson Lane, Niagara-on-the-Lake

No registration is required. Attendees are welcome to drop in at any time during the event.

Get Involved

Community input is an important part of the Queen Street Secondary Plan project. Project information, engagement opportunities, and updates on upcoming engagement opportunities are available through the Town's Join the Conversation page and the Town's project webpage:
