Do I require a permit?

Building permits are required for all exterior and interior construction. Storage sheds that are under 15 m² [161 ft²] or other accessory buildings under 10 m² [108 ft²] are exempt from the requirement for a permit but must still meet zoning regulations.

Permit fees must be paid when applying for a permit. An application will not be processed until all applicable fees are received.

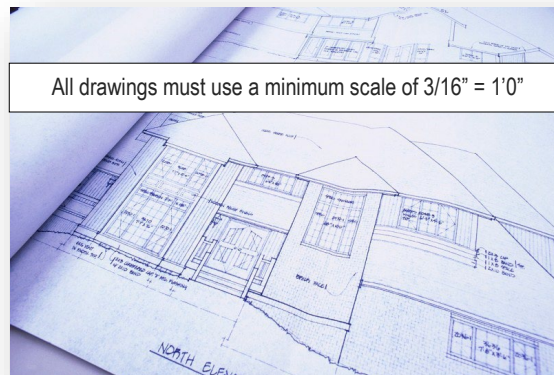

Before applying for a permit, you may be required to contact the following departments and/or agencies:

- Municipal Heritage Committee
- Urban Design Planner
- Niagara Region, Infrastructure Planning and Development Engineering (*septic systems*)
- Niagara Escarpment Commission (*development permits*)
- Niagara Peninsula Conservation Authority
- NotL Operations Department (*entrance permit*)
- Regional Works Department (*entrance permit, sign permit*)

Note: If you are required to contact any of these agencies, approval must be presented at the time of permit application.

PERMIT REQUIREMENTS

- Visit: notl.com/town-services/building-services
- construction drawings including floor plans, elevations, and cross sections are to be uploaded to our building permit software: Cloud Permit, at the following link – <https://ca.cloudpermit.com/registration>
- site plan showing setbacks and existing and proposed building dimensions and areas
- grading plan completed by an Ontario Land Surveyor or Professional Engineer
- pre-engineered truss and floor layouts if necessary
- entrance permit if necessary
- Ontario New Home Warranty Declaration (required for new home construction)
- Heating and Cooling System Design and the Ventilation Design must be completed by a qualified hearing, ventilation, air conditioner installer (HVAC designer).
